Bring the language to life...

No foreign language experience is complete without knowledge of the culture. Throughout the year, your child will participate in a variety of fun-filled, educational activities, which teach the customs, and traditions of Spanish-speaking countries. From "Cinco de Mayo" to Christmas celebrations, it's all designed to give your child a better understanding of the world and the people who live in it.

Now is the time...

These early years are when children form the speech patterns they will use for the rest of their lives. During this critical period, they are highly attuned to learning and "absorb" information from their surroundings at an astounding rate. This program will help your child take advantage of this once-in-a-lifetime "window" during which your child is sensitive to language and most eager to learn.

Children will do a 45-minute performance for parents at the end of the year. Advanced classes will go to a Mexican restaurant.
